

Glyphs

Student Objective:

Students listen to the pre-recorded glyph directions. As they listen, they complete the glyph based on the directions.

Materials and Resources:

- <http://www.kconnect.com/glyphs.html>
- <http://www.geocities.com/EnchantedForest/Fountain/2131/others.html>
- <http://www.abcteach.com/directory/basics/glyphs/>
- <http://schools.bcps.org/schools/ces/cromwell/tooth/sampleglyphs.html>

When and How to Introduce the Task:

After we do a few color a glyphs as a whole class, using the cassette player, I share with students that they can now do this activity on their own when they visit the Listening Corner.

To introduce color a rhymes to the children, I model . . .

- how to select a color a glyph
- how to set up your work space
- how to insert the cassette tape
- how to push play/rewind/stop
- how to listen and follow directions
- how to return the materials to the correct locations when finished
