

The Itsy Bitsy Spider

My sister began to pout,
as the spider was washed out of the _____.

She watched as it landed on its tush,
right next to the big green _____.

The sun made the day get hotter,
and dried up all of the _____.

Soon her eyes grew much wider,
when she noticed the large gray _____.

She dropped her glass,
onto the _____.

From the glass spilled some milk,
just as the spider drifted away on _____.
