

Dear First Grade Parents,

It is my intention to create a website for parents and students. The website would have information available to parents including newsletters, daily news, announcements, reminders, contact information, our class schedule and other helpful information.

Depending on parent response, it is also my hope to include student work samples and photos of projects, activities, and lessons. I believe that your child's work would be a positive addition to our class website.

STUDENT NAMES and ANY OTHER MEANS OF IDENTIFICATION will not be used on the site.

If you agree to allow your child's work and/or photos to be used in the manner described above, please sign accordingly below. If you do not wish to have your child's work and/or photos used in the manner above, please sign accordingly below.

Thank-you for your consideration.

Sincerely,

Jessica Meacham
