

# Guided Reading Lesson Plans

Today, you'll just pull three students one at a time to read. Just give them the book summary, and have them read and then answer questions. As they read, try to have them problem solve on words they don't know. I've included our strategies sheet as a tool you can use, if you like. Please make any comments that you feel I should know about how the reading went for students. Thanks and have fun! ☺

## Tools at Home By Peter and Sheryl Sloan

- Joelly
- Jordan
- Devon

<p>1. <b>Book summary/preview:</b> <i>We use many tools at home. What tools do you use at home? (allow for a few answers). Let's read this book to find out some of the tools that can be used at home and what they do.</i></p>	<p>2. Take a picture walk.</p>	<p>3. Have students read. Make any observations on the reverse side of this sheet (about student reading behaviors, as you see fit).</p>	<p>4. Check for comprehension:</p> <ul style="list-style-type: none"><li>• What tools did we learn about?</li><li>• What do they do?</li><li>• What other tools could have been in this book?</li><li>• Who should use the tools that were found in this book (children or adults)?</li><li>• Can you think of any tools that children can use?</li></ul>
